## Program Description:

The Behavioral Health Support Associate in Applied Science provides a pathway for entry-level positions within the helping professions. The program includes a general education component as well as a concentration in the skills necessary to work in mental health. The hands-on practicum experiences in community settings prepare students for Community Support Specialist positions in mental health settings, assisting clients with behavioral and mental health diagnoses. Graduates of this program are qualified for entry-level positions in state, county, and local human service agencies, substance use disorder facilities, community mental health centers, hospitals, schools, and other identified agencies. The Behavioral Health Support program is designed to prepare students for employment in the State of Missouri.

NOTE: Practicum experience requires a criminal background check and have a valid driver's license to participate. Additional requirements such as drug screens, immunizations, and vaccinations may be necessary.

**Locations.** This program is offered at Florissant Valley and Forest Park by taking a mixture of face-to-face and online courses.

**Cost of Attendance.** For more information on cost of attendance visit MoSCORES (<https://scorecard.mo.gov/Search/>).

**Program Career and Salary Information.** Pursuant to Missouri HB 1606 (2018), information regarding the number of credit hours, program length, employment rate, wage data, and graduates employed in careers related to their program of study at St. Louis Community College can be found at the following URL: <https://scorecard.mo.gov/scorecard/> ([https://www.google.com/url/?q=https://scorecard.mo.gov/scorecard/&sa=D&ust=1555336894857000&usg=AFQjCNG1xf3E\\_j2lO96zEytILO-s5xaJCQ](https://www.google.com/url/?q=https://scorecard.mo.gov/scorecard/&sa=D&ust=1555336894857000&usg=AFQjCNG1xf3E_j2lO96zEytILO-s5xaJCQ)). Search using School / Program "St. Louis Community College" and choose the degree or credential type of interest.

The following limitations to the data apply: Information provided is based on the most recent cohorts available. Typically, most recent cohorts for wage and completion data are six years prior to the current academic year. Time to complete a program of study varies depending on the number of credit hours students earn per semester.

**Interested in this program?** Start the enrollment process by visiting the **Apply to STLCC** (<https://www.stlcc.edu/admissions/apply-to-stlcc/>) page.

## At the completion of the program, students are expected to:

1. collaborate in the development, revision, and execution of an individualized treatment plan that identifies specific, measurable, time-limited goals, and interventions.
2. obtain certification in Mental Health First Aid.

3. communicate with clients regarding internal and external resources for recovery.
4. create documentation to support client and treatment plan.
5. assist clients with various mental health needs within practicum settings.
6. analyze potential legal and ethical issues as they relate to targeted populations.
7. combine foundational knowledge of risk factors, treatment options, and recovery techniques to assist clients with a variety of mental illnesses.
8. generate appropriate helping responses for individuals in mental health crisis and/or with suicidal ideation.

**Missouri Civics Examination.** Students entering college for the very first time in fall 2019 and who intend to complete an associate's degree must successfully complete a civics examination. **Information on who is eligible for a waiver can be found on the STLCC website** (<https://stlcc.edu/programs-academics/missouri-civics-exam.aspx>).

## Expected Graduate Competencies

Behavioral Health Support education assists the student to think critically, problem solve creatively, manage crises, and practice from a caring, non-judgmental perspective. It is influenced by changes in the demographics of society, the healthcare delivery system, advances in medicine and science, and best practices in counseling and social services. Faculty facilitate educational opportunities, fashioned by the communities we serve, that meet diverse individual student needs and promote professionalism to help students reach their employment goals. Failing to meet the basic standards of professional care in any of the following areas will result in dismissal from the program. This degree is part training and part academic and as such both aspects of learning must be met to successfully work in mental health. As such, there are three benchmarks to admittance and retention in the program:

1. Have a 2.5 GPA
  - a. Students may be admitted on a probationary basis but must earn a 3.0 or higher in all current semesters until the GPA is raised or they will be dismissed from the program

- b. Probationary students must sign documentation indicating they are aware of their dismissal from the program if they do not meet the GPA requirements
