

ENGINEERING TECHNOLOGY: AAS

Associate in Applied Science | 60 credit hours minimum

Area of Interest: Advanced Manufacturing, Industrial Occupations, and Transportation

Program Website (<https://stlcc.edu/programs-academics/pathways/s-t-e-m/engineering-technology/>)

Academic Advising (<https://stlcc.edu/admissions/advising/>)

Program Description:

The Engineering Technology Associate in Applied Science program prepares students for entry level positions as engineering technologists through classroom instruction, laboratory skill practice, and/or work experience. Students will gain hands on knowledge in electronics, blueprint reading, measurement techniques, and prototype development.

Persons interested in this program should possess a stable temperament, manual dexterity, physical stamina, and the ability to integrate and prioritize a variety of activities. Engineering technicians jobs are available in a wide variety areas including engineering, manufacturing, medical, repair, maintenance, and other fields. Course work can be focused on biomedical equipment repair, computer aided design, manufacturing, electronics repair, robotics, or other areas.

Locations. This program is offered in its entirety at Florissant Valley.

Related Programs. The Engineering Department offers certificates in the following areas:

Computer Aided Design (CAD), Certificate of Specialization (<http://catalog.stlcc.edu/programs/computer-aided-design-certificate-specialization/>)

Biomedical Electronics Technology, Certificate of Proficiency (<http://catalog.stlcc.edu/programs/biomedical-electronics-technology-certificate-specialization/>)

Precision Machining Technology, Certificate of Specialization (<http://catalog.stlcc.edu/programs/precision-machining-technology-certificate-specialization/>)

Transfer/Articulation Information. This is a 2-year terminal degree. Several courses are transferrable to other institutions. Students should check with the receiving institution to determine credit transferability.

Students who are interested in pursuing courses leading to engineering bachelor's degree programs should follow the courses listed in the Engineering Science, Associate in Science (<http://catalog.stlcc.edu/programs/engineering-science-as/>) or the General STEM Transfer Studies, Associate in Science (<http://catalog.stlcc.edu/programs/general-stem-transfer-studies-associate-science/>) degrees.

Cost of Attendance. For more information on cost of attendance visit MoSCORES (<https://scorecard.mo.gov/Search/>).

Program Career and Salary Information. Pursuant to Missouri HB 1606 (2018), information regarding the number of credit hours, program

length, employment rate, wage data, and graduates employed in careers related to their program of study at St. Louis Community College can be found at the following URL: [https://scorecard.mo.gov/scorecard/](https://scorecard.mo.gov/scorecard/(https://www.google.com/url?q=https://scorecard.mo.gov/scorecard/&sa=D&ust=1555536894857000&usg=AFQjCNG1xf3E_i2lO96zEytILO-s5xaJCQ)) (https://www.google.com/url?q=https://scorecard.mo.gov/scorecard/&sa=D&ust=1555536894857000&usg=AFQjCNG1xf3E_i2lO96zEytILO-s5xaJCQ). Search using School / Program "St. Louis Community College" and choose the degree or credential type of interest.

The following limitations to the data apply: Information provided is based on the most recent cohorts available. Typically, most recent cohorts for wage and completion data are six years prior to the current academic year. Time to complete a program of study varies depending on the number of credit hours students earn per semester.

Interested in this program? Start the enrollment process by visiting the Apply to STLCC (<https://www.stlcc.edu/admissions/apply-to-stlcc/>) page.

At the completion of the program, students are expected to:

1. communicate technical issues through written documents and oral communications.
2. troubleshoot basic Direct Current (DC) and Alternating Current (AC) circuits.
3. interpret engineering drawings and schematics.
4. solve engineering problems at the technician level.
5. apply measurement techniques to mechanical and electrical problems.
6. use equipment properly while meeting safety and environmental concerns in the workplace.

Missouri Civics Examination. Students entering college for the very first time in fall 2019 and who intend to complete an associate's degree must successfully complete a civics examination. Information on who is eligible for a waiver can be found on the STLCC website (<https://stlcc.edu/programs-academics/missouri-civics-exam.aspx>).
